About This Game

From the studio that's brought you such classics such as: Kimulator 2, Aidsmoji: The Forbidden Fruit, and There Is A Genie In My Szechuan Sauce comes another epic like none other. A tale of a superhero on his quest to save the world from cringing to death. His name is: Dabman!

On a day like any other, in some random Canadian suburb, Robert and his friend John are hanging out, when John tells Robert to eat a laundry detergent pod. After some banter and offering Robert a copy of aidsmoji, Robert eats the pod and dies. However, to John's shock Robert comes back, but this time with super powers! After demonstrating his super powers to John they both decide to come up with a name for our newfound hero, settling on Dabman. After a proper suiting montage, they settle down and watch the news. From said news report, they learn of the evil villain by the name of Emoji Eradicator, and his plans to take all of the emojis and cringe the world to death. Dabman sets out to stop this evil doer, and bring the emojis back to their rightful owner in this tale of superhero trying to save the world. Will the Emoji Eradicator be successful, or will Dabman arise as the true hero he is, and stop this evil doer!? Find out in Dabman When The Haters Dab Back!

dabman when the haters dab back gameplay. dabman when the haters dab back

A mate of mine gave me this game he is now my gay lover ;). The best thing ever happened to me. It definitely deserves the Oscar prize. saint sacrament s't'un osti d'bon jeu. Damn boi this♥♥♥♥♥♥♥♥ is more lit than my mothers ♥♥♥♥♥♥♥♥s last night. I would know I was there.. absolutely dabtastic. 10/10 would dab again. I really liked the dabbing it was very realistic as to how I dab myself the creators obviously know how to dab like professionals.

They are not kidding around when they dab. they dab like they have to save the universe. which is probably what they are doing by dabbing. exactly.. I want to die now. <3. nice longer than the other ones []. Excellent action game with great characters and story. Also the graphics are nothing to sneeze at.

11/10 -IGN Would Dab aGain. Its a simple game made by some Autistic Kids (its cringe af).

11/10 rating.

Go buy it. It is worth the 3\$.. The game in itself doesn't have a lot, but I don't care. I really do appreciate that they got together and did this. I don't even have this many friends that likes memes. It's sometimes a bit hard to hear what they're saying because of an accent I don't know what is. I love the script and the whole multiple choice thing and how most of the options are (obviously) dabs. The storyline is great and my favourite character are is either haterboy or the main "villain". Even though I got roughly got 17 minutttes out of this I would still recommend this due to it's cheap price and the stupid fun. (Hopefully) Enjoy!. This game is an emotional rollercoaster.. Support Canadian products.

Buy Dabman.. Best Game of the year
